Hi Fatima,

We'll put together a response and keep you in the loop. Thanks for sending.

Ericka,

Do we need to refer this to the Region and find out what this is all about?

Subject: This EPA from Region IX clearly spells out all the Notice of Violations - linked to the SFPUC - our City is going to the HOGS.

It is a shame that the pollution and contamination here in our City and County of San Francisco has reached saturation point.

Oe source that has adversely impacted the Bayview Hunters Point - a radius of over three miles - is the Phelps Raw Sewage Treat Plant. The on going Sewer System Improvement Project started at a price of \$6 billion - and cost over runs will - end up costing the tax payers - over \$12 billion.

There is NO accountability and less transparency. Who will put a STOP on this on going nonsense?

The SF Public Utilities Commission has failed us - two letters sent to the Governor of California - Gavin Newsom and one to the General Manager of the SF Public Utilities Commission - clearly spells out the many Notice of Violations and the blatant nefarious activities.

Again and again half-treated sewage in the billions of gallons has been dumped into the Bay.

There has NOT been one single hearing - on the many NOV's and more the billions of gallons - dumped into the Bay - half treated sewage..

Without studying the empirical data - the Mayor London Breed and others - have been throwing arrows in the air. It is time they take responsibility for adversely impacting millions of decent human beings and life.

Not once have they exercised the Precautionary Principle. Who is fooling whom?

Not once has the City and County of San Francisco - called for a hearing - on the many Notice of Violation (NOV's) - linked to the Oceanside Treatment Plant and the Bayview - Phelps Raw Sewage Treatment Plant.

The authorities keep kicking the can down the street.

It is time to call in the Federal Bureau of Investigation - get to the bottom of this on going nonsense.

After all we have the empirical data - the facts - and these rascals must be booked and jailed.

In any decent City - many would have gone to jail - but, here they receive in access of \$250,000 plus benefits

each and every month - keeping doling millions of tax payers money - Community Benefits linked to the SSIP - harming our City and Country with intent - this is dereliction of duty - scumbags of the highest order.

Please read this recent letter sent by the Director of Region IX - Environmental Protection Agency :
